

Educater Mail is a school-to-parent communication software that enables schools to produce consistent correspondence between teachers, parents and pupils.

IMPROVING SCHOOL-TO-PARENT COMMUNICATIONS WITH EDUCATER MAIL

Communicating with parents/carers is an important part of school life. Three Bridges primary school uses Educater Mail to ensure that parents/carers get up-to-date information about key events and dates and other important news as this is something that the school cares greatly about.

We have recently changed our school/home communication system from ParentMail PMX to Educater Mail.

We use this communication system in school because:

- We are able to cut down on the amount of paper we use, therefore reducing waste and cost. We do this by sending home newsletters, flyers and information letters via Educater Mail
- Email messages will get to you directly and on time
- School emergency closures or important information can be sent immediately by text message

Parents/Carers **DO NOT** need to register to start receiving messages. All primary contacts for our pupils who have supplied the school with an email address and/or mobile number will start receiving emails and text messages straight away.

Although Educater Mail does not currently have an app for parents to download on to their mobile phones, this is something that they hope to have ready in the New Year. We will advise parents/carers as soon as this is available.

Please remember to update the school as soon as you change your email address or mobile phone number to ensure that you keep on receiving important messages from the school.
