

English

In English we will be continuing 'Drawing Club' to write simple sentences. We will be focussing on using capital letters, full stops and finger spaces as well as using our phonics skills and sound mats to spell words. We will be looking at videos and poems as well as stories as a stimulus for our writing. Some of our topic books are Something else, Traction Man and Pumpkin Soup.

Maths

In Year 1 this term we will be exploring number and place value to help us recognise and write numbers and to count forwards and backwards. We will also exploring ways to represent numbers such as with physical resources. We will begin exploring addition and subtraction and looking at the relationship between these two operations and learn new methods to help us with these.

How you can help at home

1. Remember to read with your child at home. We will be sending reading materials home but feel free to read your own books or choose a book from 'Oxford Owl.'
2. Visit the library with your child and encourage them to read exciting books.
3. Practice writing sentences with your child e.g. shopping lists, letters. Also practice writing their common exception words.

Year 1 Topic Map Autumn

Toys

PSHE and British Values

In PSHE we will be looking at what is a family and what are friendships. We will also be looking at how to fix conflicts in friendships and respecting and recognising other people's emotions. We will be recognising and celebrating our strengths and knowing how to relax in different ways

Foundation Subjects

Geography- We are going to explore where our school and town is and where we live in England. We will look at countries that we have travelled to and the different weather around the world.

Vocab: street, town, map, human and physical features.

DT- We are designing and making our own puppets.

Vocab: fasten, join, template, design.

Computing- We are using digital tools to create shapes and backgrounds.

Vocab: click, drag, tools, iPad

PE- Taking part in gymnastics and playground games.

Music: In music we are going to be looking at pulse and rhythm.

We will be listening to music and playing instruments.

Science -seasonal changes and how we can keep dry in the rain.

History - We will look at what our toys are like now compared to the past and how they were made.
